57005001	BLACK COIL SOFTAIL 2018 UP (repl. OEM 31600067)	\$82.10

High-Performance Maintenance Free Batteries

- All are factory activated.... just take it out of the box and put it in your bike
- Increased conductivity for higher starting wattage, increased vibration resistance
- High puncture resistant separator for increased service in high vibration applications
- Advanced lead-calcium technology pumps up starting power
- Sulfation retardant dramatically reduces battery-killing plate sulfation. This means they will last up to three times longer than conventional batteries
- More CCA's (Cold Cranking Amps) than their Original Equipment equivalents

To maximize battery performance and starting power reliability we recommend you check your battery cables periodically and replace when needed. To maintain your Motor Factory battery to its fullest performance potential we recommend putting your battery on a trickle charge daily.

Motor Factory Battery Application Chart

Fitment	High-Performance Maintenance-Free	Standard (without acid)
97-Up FLT, FLHT, FLHX, FLHR, FLTR & Trike Models	666107

WHY REVTECH & MOTOR FACTORY OILS?  
Experience the Quality

RevTech<sup>®</sup> lubricants have been providing the ultimate in protection for the V-Twin enthusiast for over a decade. While RevTech<sup>®</sup> lubes use the finest base oils and additives, it is their excellent balance and superior formulation that provides the performance. Don't be fooled by dog and pony show tricks or meaningless specifications. More isn't always better. Insist on a high quality, well engineered product like RevTech and Motor Factory!

10 Quart Oil Drain Pan

This reusable low profile drain pan is ideal for your service shop or for the do it yourself home user. The 10 quart oil drain pan's capacity allows you to drain multiple engines while helping to reduce the mess and cleanup required when changing the fluids on your motorcycle. This drain pan is designed specifically for use with low vehicles. Fits easily under standard height, lowered motorcycles, and slips beneath the bike even when on the side stand. Convenient carrying handle simplifies transporting for recycling or waste.
